

On January 6, 2017 there was held an unscheduled council of the faculty of veterinary sciences and animal husbandry.

Order of the day was celebration of 80<sup>th</sup> anniversary of candidate of biological sciences, associate professor Ibragimov Rashid Mukhtarovich.

Ibragimov Rashid Mukhtarovich was born on January 6, 1937 in Aktobe. In 1970 he defended dissertation in biological sciences on the theme “Biochemical characteristics of antigenic (allergenic) echinococcus faction”. The whole work experience is 52 years, including scientific-pedagogical 36 years. From 1977 he worked in S.Seifullin KazATU, at the department of veterinary medicine.

All his life Rashid Mukhtarovich dedicated to one of the most humanitarian professions – health protection of animals and ill-health prevention of people. All these years measured up to exacting standards, applicable to a lecturer of higher school. He made a contribution to the development of higher education system in the Republic of Kazakhstan, laid the basis for worldview of generations. Thanks to impersonal and thoughtful work and patience students' abilities were realized. Hundreds of former students, veterinary doctors rose to eminence in profession. Rashid Mukhtarovich shared his knowledge and experience with colleagues and students.

He was awarded the title “veteran of work” and “honorary educator of the republic of Kazakhstan”.
